Write C# codes to execute the following:

1- Insert n integers in an array name it **Arr1**.

2- Find out the average of the **Arr1** elements.

3- Print the last element of **Arr1**.

4- Display the first numbers of the sequence 1, 1, 2, 3, 5, 8, …. that are less than 50.

Best wishes,

Dr. Heba El Hadidi
